The amendment received 3 February 2011 has been made of record. Claims 49-62 and 64-66 are pending.

Claims 49-51, 55-59 and 61-62 are rejected under 35 U.S.C. 102(b) as being anticipated by "Ethanol Extraction of Rubber Components".

This rejection is maintained for reasons of record. Applicants' limitation to "agitating" the gasket and solution is seen as inherently met by the reference. The reference teaches that the ethanol is pumped through the rig containing the gaskets. This flow of solvent is seen as inherently resulting in some degree of agitation. Applicants' broad recitation of agitation is not seen as distinguishing over the prior art.

Claims 52-54, 60, and 64-66 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
